**DOMINIC PARKER**, Professor of Agricultural & Applied Economics and Director of Graduate Studies at University of Wisconsin - Madison; dominic.parker@wisc.edu; https://aae.wisc.edu/dparker/

Dominic Parker's research aims to understand the effects, intended and unintended, of policies directed towards the environment and natural resources and the role that markets and property rights play in regulating those effects. He also studies the economies of Indigenous communities, and how government policies affect their development. Parker is a regular lecturer on research methodology for the Ronald Coase Institute and a senior fellow at the Property Environment Research Center. His research appears in economics, science, and law journals and spans topics in environmental, resource, and development economics. He also serves editorial roles at three leading journals in environmental and resource economics.
